

Kalpesh Rajpurohit

Full stack .NET Developer

✉kalpeshrajpurohit04@gmail.com | ☎+44 7775 413356 | 📍cowlyn street, Leeds UK | 🌐LinkedIn

Summary

Full Stack .NET Engineer with **4+ years** of experience building **enterprise-scale applications, microservices, and real-time systems** using **.NET Core, Angular, SQL Server, and REST APIs**. Delivered **~30% performance gains** and **99% messaging reliability** in high-load systems at Reliance Industries. **Eligible to work in the UK under the Youth Mobility Scheme visa.** | **Ready to relocate and start immediately**

Experience

Reliance Industries Ltd.	India
Software Engineer (Full Stack – .NET & Angular)	10 Oct 2023
- Designed and delivered a real-time Emergency Messaging System, achieving ~99% message delivery reliability under high-load enterprise scenarios. - Engineered a UDP-based multithreaded backend and optimized SQL queries, improving system response time by approximately 30%. - Developed responsive Angular modules using TypeScript, improving UI performance and usability across desktop platforms. - Implemented Two-Factor Authentication (2FA) and secure access controls, strengthening compliance with enterprise security standards. - Collaborated with product, QA, and infrastructure teams in Agile/Scrum, contributing to design reviews, sprint planning, estimations, and production deployments. - Developed a Township Visitor System (TVS) to manage visitor entry, approvals, and access tracking, improving security monitoring and entry authorization efficiency. - Automated visitor logging and approval workflows, reducing manual verification effort and enhancing real-time visibility for township security teams.	

WebAshlar Technologies Pvt. Ltd.	
software Engineer Full Stack (.NET Core /MVC)	Mar 2022 - Oct 2023
- Designed and developed .NET Core microservices and REST APIs using clean architecture and repository patterns, improving code maintainability. - Contributed to a secure Digital Coin System supporting transaction-heavy workflows, emphasizing data consistency, validation, and system reliability. - Implemented SMTP-based automated notifications, reducing manual communication effort and improving real-time system alerts. Designed and developed a service provider web platform from scratch, building the entire system end-to-end from backend (.NET Core, APIs, database) to frontend UI, ensuring scalability, performance, and maintainability. Developed a Pharmacy Medical Management System in .NET, supporting medicine inventory, billing, prescription handling, and patient workflows, improving process automation and data accuracy.	

Education

Jaipur National University, India	Master of Computer Applications (MCA) • 7.85 GPA 06/2019 - 06/2021
Veer Narmad South Gujarat University, India	Bachelor of Computer Applications (BCA) • 6.89 GPA 06/2016 – 06/2019

Skills

Backend
C#, .NET Core, Web API, Entity Framework Core, LINQ, ADO.NET
Frontend
Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, VB.NET, asp.Net MVC/ Core, JQuery
Architecture & Practices
Microservices, REST APIs, SOLID, Design Patterns, Agile/Scrum
Databases
SQL Server, Oracle
Soft Skills
Technical ownership, collaboration, problem-solving, continuous learning

Certifications

Full Stack Developer
Tops Technologies
March 2021
Hands-on training in backend architecture, RESTful API development, and enterprise application design.
